To help you make the NATION'S Business YOUR Business

CARTER FIELD, famous Washington correspondent, is writing for this paper a weekly letter in which he explains and interprets the epoch-making events that are taking place in the national capital.

For twenty years Mr. Field has been observing and reporting the activities of Congress and administrative departments in Washington. His experience and his wide acquaintance among important men in the capital fit him unusually well for the particular task he has undertaken—that of giving you a clear understanding of what all these important developments at Washington mean to you and to other American citizens.

Mr. Field's letters appear in this paper under the heading

SEEN and HEARD Around the NATIONAL CAPITAL

The nation's business IS your business today more than ever before. Keep up with it by reading Carter Field's brilliant and interesting letters—tell your friends about them.
